

# BELIZE CAPTURES FIRST PLACE

Belize Telemedia Limited is pleased to announce that Belize has captured for the fourth (4th) time, FIRST place in CANTO's 11th Annual "World Telecommunication and Information Society Day" (WTISD) video competition. This year's winner is 18 year old Ms. Jo-Elisa Clarke, resident of Calcutta Village, Corozal.

BTL is also proud to partner with CANTO to provide Ms. Clarke's all-expense paid trip for two to the 33rd Annual Conference & Trade Exhibition in Punta Cana, Dominican Republic. As part of her prize, BTL has contributed US \$1000.

This year, CANTO's 11th Regional Video Competition was staged under the theme: "Technology and me - Exploring the Possibilities of ICT". Jo-Elisa's winning video outlined methods of promoting and disseminating information to customers by means of technology. It further illustrated how a water company can benefit from the use of technology and thus provide a positive impact on the entire country of Belize.

An overjoyed Ms. Clarke states: "I feel privileged to be this year's winner of CANTO's video competition. When I received the call, I was so excited that I forgot how to speak. All the hard work paid off. I took it as a graduation gift, because I had just graduated on the 21st of May and I received the good news by Ms. Tricia on the 22nd of May. So I am really happy to become this year's winner."

BTL commends Jo-Elisa for stepping up to embrace this challenge and for so ably representing the best and brightest of our Belizean young people. Readers are invited to visit BTL's Facebook Page to view the winning video.
