

DigiNet IS NOW *Countrywide!*

On Wednesday, May 29, Digi held a press conference to highlight its achievement of a major milestone - DigiNet now available countrywide! As a result of the company's aggressive rollout program, more customers in major cities, towns and villages from as far north as Corozal to Punta

Gorda Town are enjoying ultra-fast internet speeds powered by DigiNet. Digi's state-of-the-art fiber network has over 22,000 square kilometers of fiber optic cable, the most extensive fiber infrastructure in the country. This enables the company to serve the increasing demand for high-speed broadband service across the country.

Digi has significantly altered the future of wireless broadband and communications in Belize with the replacement of its aged copper network with an ultra-modern, future-proof, fiber optic network. Since its launch in San Pedro in August 2017, DigiNet continues to gain rapid momentum as it brings advanced capabilities to now over 20,000 customers. In March 2019, in addition to countrywide coverage, Digi introduced improved DigiNet Boost Plans offering double speeds of up to 500Mbps bundled with FREE DigiNet and DigiTel services. *"This is a landmark day and a monumental achievement for Digi — we have spent the past year accelerating and advancing our fiber network with 2 goals at the forefront: to ensure Belizeans nationwide can enjoy optimum speed and reliability, and to place Belize on par with leading global*

jurisdictions" states Digi's Chief Financial Officer, Ivan Tesucum. *"The investment in this new network could not have been realized without the support from Taiwan ICDF and Atlantic Bank who were instrumental in facilitating our nationwide roll out."*

DigiNet is a reliable, high-performing fiber based service that allows customers to enjoy more entertainment, improved security online and at home, enhanced video conferences, quicker upload and downloads, and faster connections to the cloud. DigiNet is undoubtedly a key economic enabler, improving competitiveness among Belizean businesses, fostering the creation of new ventures and attracting new inward investment. With DigiNet's unmatched broadband performance and compelling offerings, the digital world is now more easily accessible to all in both urban and rural areas across the country.

DigiNet will celebrate its
2-year Anniversary
in August 2019
