

EXPANDED COVERAGE WITH ELEVEN NEW CELL SITES!

BTL continues to expand DigiCell coverage throughout the country of Belize. In First Quarter 2017, BTL invested \$3M on the 4GLTE Advanced network with the installation of 11 new cell sites. As of March 2017, a total of 111 cell sites are located across the country.

With these new cell sites, DigiCell now offers better coverage countrywide and improved mobile services to thousands of customers. Particular focus was placed in the southern region of the country where 10,000 more customers can now access DigiCell 4GLTE Advanced.

These new cell sites are located in:

Toledo District – Forest Home and Jacinto Ville

Stann Creek District – Maya Center

Corozal District – Chan Chen, Buena Vista

Cayo District- St Matthew's Village, Frank's Eddy, Unitedville, University of Belize Belmopan Campus and Mile 29 Hummingbird Highway

Belize District – Western Paradise Village

The company is proud of its accomplishments and its ongoing efforts in ensuring that customers countrywide experience **DigiCell 4GLTE Advanced**, the best in mobile communication!
